**Save Kids of Incarcerated Parents**

SKIP, Inc. was founded in 1976 and incorporated in 1980. For 48 years SKIP has proudly served the special needs of children whose parents are incarcerated.

SKIP's approach is comprehensive and involves the child(ren) and their caregiver. It is our hope to increase public awareness through efforts that will address the issues and concerns of children of prisoners and their caregivers.

Children of incarcerated parents possess unique needs and have gone unrecognized for far too long. They are often times **S**tigmatized, **T**raumatized, **O**stracized, and **P**enalized for what their parent(s) might have done.

It is our goal to help **STOP** the cycle of incarceration and assist the children by:

- providing programs and services such as education and social enrichment, mentoring and family referral services for children and their caregivers.
- advocating on behalf of SKIP's children in efforts to increase public awareness of the underlying problems of these children as victims.

A Summer Camp Character Education Program

**PROGRAM DESCRIPTION:**

Camp KARATer has been providing educational resources to teens since 2008. This fun filled 6-day summer camp character education program is designed to help young participants ages 12-15 with life through a structured program fostering self esteem, providing role models and influencing positive choices.

The program helps to promote the development of leadership and positive attitudes in youth. Life skills are taught to youth alike, offering them a strong and compelling foundation while providing a character compass to guide them through difficult situations and choices.

The goal is to instill positive character traits in the youths while building constructive minds. It is the foundation of character, self-esteem and leadership that determines the direction youth takes. Their direction begins with a strong parent/child relationship and it builds as schools and community organizations take an active role in children's character development.

Participants will gain a new perspective on life while building character and leadership skills in a nurturing and safe environment. The program empowers participants and points them on the path to become productive citizens.

There will be total of five workshops that will focus on social and life skills training: (1) Social Communication Skills and Etiquette 101; (2) College and Career Readiness; (3) Financial Management; (4) The Youth Entrepreneur Part I&II. Some classes will have pre and post test assessments. Certificate of Completion will be presented at the end of training.
